Custom Kitting, Printing, & Design Services

We offer a wide range of options for kit packaging, including small and compact designs. Our offerings range from economical and efficient to high-end.

We create custom products using your existing artwork or work with our design team to create unique kits that will help you stand out. We create custom labels using litho-label, digital, or flexographic printing.

Your kits are assembled in a FDA-registered and temperature-controlled facility, and packaged with sample integrity in mind. All shipping is IATA and DOT compliant.

Select Size

Choose from stock prototypes or standard sizes, or specify size based on collection type and needs.

Create Design

White label your kit using our standard prototypes, or work with our design team to create custom packaging.

Add Supplies

Work with our team of experts to identify the supplies needed to build your customized collection kit.
