The Phlebotomy Solution That's Built for Laboratory Excellence

DS2 is your all-in-one phlebotomy platform- built to streamline sample collection from order to final draw. We eliminate the inefficiencies and handoffs that slow your process and impact patient care.

It's Testing, Connected.

Diagnostic Support Services outperforms fragmented competitors by delivering a fully managed, end-to-end phlebotomy solution. From order creation to final draw, we streamline the entire sample collection process with unmatched speed and reliability.

One contact. One service. All handled.

- **Patient outreach options include** portal, text, and phone calls
- **99% on-time appointment rate** for dependable, efficient scheduling
- **Kits and supplies provided** for all phlebotomy draws, eliminating logistical hassles
- **Dedicated project manager support** for seamless coordination and execution
- **Event and on-site staffing services** to support mobile or large-scale collection needs

DS2 Outperforms Competitors- Here's How

Frustrated by inconsistent coverage and fragmented workflows from other phlebotomy systems? DS2 goes beyond the limitations of standard mobile phlebotomy providers.

While our competitors often rely on loosely coordinated contractors and reactive processes, DS2 delivers a fully managed, end-to-end solution that's built for reliability, speed, and scale. We're more than just a technology platform—we manage the entire phlebotomy process, including resources, contacts, and capabilities, eliminating the need for clinician or patient involvement.

- End to end process management
- Fully managed, vetted, and accountable phlebotomists
- Kit prep, storage, and tracking all fully managed
- Reporting visibility with custom dashboards
- Arranged courier and transportation
- Service options include wellness events, mobile, in-house phlebotomist, and patient service center access

Our platform gives labs and providers a dependable, centralized way to manage every draw- with less follow-up, fewer redraws, and better outcomes.

With DS2, you gain control, consistency, and peace of mind- all in one integrated platform.

Contact Diagnostic Support Services today and experience the power of integrated testing services. Let us help you optimize your workflow and drive your growth.
